7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

The area described within the Las Vegas Valley Water District service territory as denoted by Chapter 167, Statutes of Nevada, 1947, as it now exists or as it may hereafter be amended.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

The area described within the Las Vegas Valley Water District service territory as denoted by Chapter 167, Statutes of Nevada, 1947, as it now exists or as it may hereafter be amended.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Water will be diverted from a new drilled well, equipped with a pump and motor and delivered through a distribution system to the area included within the boundaries of the Las Vegas Valley Water District service territory.

12. Estimated cost of works \$1,000,000

13. Estimated time required to construct works 2 years

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 3 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This application seeks to move water off of existing Las Vegas Valley Water District Well W052 and place it on a newly constructed well. Well W052 will be plugged and abandoned.

16. Miscellaneous remarks:

Attachment A contains a map of the POD for the new well with a 2,500 foot buffer around that point. The map shows the domestic wells that are located near the POD.
